REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The examiner respectfully asserts that none of the prior art, taken either singly or in combination, is seen to teach or suggest the use of a pillow comprising the particular structural configuration of a substantially oval annular resilient pillow main body having a central opening and a resting surface; a resilient pillow secondary body of elongate shape located transversely to the opening of the main body so as to define a pair of recesses, *the recesses being tapered*; wherein *the recesses are substantially evenly spaced apart from the oval outline form*; and wherein the main body has *a thickness at a first portion that is greater with respect to the thickness at an opposed second portion* such that the resting surface is raised at the first portion with respect to the second portion, as explicitly recited in Applicant's sole independent claim 19. With respect to the cited prior art, each of the Rhoads '335, Abitbol '793, Blosser '384, Heitz '860, Wetzler et al. '988 and Riach '778 references specifically teach the use of a chest support device comprising a main body including a pair of recesses and a resting surface which is clearly designed to have a uniform thickness only, whereas the Howe et al. '823, McLeod '647, Glenn '542 and Glenn '569 patents each disclose the use of a chest support apparatus comprising a main body having a resting surface defined by a varied thickness and a pair of recesses that are not substantially evenly spaced apart from the outline of the main body as distinctly claimed by Applicant. Hence, it is considered that the application is currently in full and proper condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert G. Santos whose telephone number is (571) 272-7048. The examiner can normally be reached on Monday through Friday, 11:00 a.m. to 7:30 p.m..
